The language of instruction is Slovene. The Faculty carries out 1st cycle academic study programmes of Kinesiology, Sports education and Sports training.

1ST CYCLE ACADEMIC STUDY PROGRAMME OF KINESIOLOGY

Duration of the programme

The programme lasts for 3 years and has 180 ECTS credits.

Access requirements

Access requirements that have to be met to enrol in the first year of the study programme of Kinesiology are: matura examination or any four-year secondary school programme completed before 1 June 1995.

All candidates must successfully pass the test of motor abilities and skills.

If enrolment is to be restricted,

the candidates will be selected on the basis of the following criteria:

- performance in the test of motor abilities and skills 40% of the points,
- overall achievement in the matura or school-leaving examination 45% of the points,
- overall achievement in the 3rd and 4th years 15% of the points.

Documents required

All candidates must submit a **health certificate** with a personal health history which should contain data on severe injuries and diseases and the ability to bear greater psychophysical loads. The health certificate that has to be issued after 4 May 2015 can be issued by a GP. If the GP considers it necessary to obtain a specialist's opinion, the latter must also be enclosed. The candidates must send the above-mentioned documents to the Faculty of Sport by **29 May 2015**.

If the candidate is a categorized athlete according to the criteria of the Slovene Olympic Committee, s/he can also submit a certificate of categorization issued exclusively by the Slovene Olympic Committee (Slovene Olympic Committee – Association of Sports Societies); the certificate is taken into account when awarding points in the test of motor abilities.

By the deadline set in the general part of the pre-enrolment announcement, the candidates will be informed in writing about all the details of the test of motor abilities.

Test of motor abilities and skills

The test of motor abilities and skills will be carried out on **29 and 30 June 2015 (the first application period)**.

In case of available enrolment places in the study programme after the completion of the selection procedure in the first application period, the test of motor abilities and skills will be performed on **11 September 2015 (second application period)**.

In case of available enrolment places in the study programme after the completion of the selection procedure in the second application period, those candidates can apply in the third application period who took the test of motor abilities and skills in the first or second application period.

The test of motor abilities and skills is valid only in the current year.

ENROLEMENT IN THE NEXT YEAR OF STUDY ACCORDING TO CRITERIA FOR CHANGING THE STUDY PROGRAMME

The method of application and application periods are published in the introductory part of the pre-enrolment announcement under “XI. Enrolment in the next year of study according to criteria for changing the study programme”.

The students of other 1st cycle study programmes of the Faculty of Sport and 1st cycle study programmes of other faculties can enrol in the same or in a higher year of the study programme of Kinesiology if they fulfil the provisions detailing the conditions for changing the programmes.

With the application, the candidates have to submit evidence showing that they fulfil the enrolment conditions of the new study programme as well as the curriculum of the previous study programme (only students from other faculties).

The documents proving that they fulfil the conditions necessary for the enrolment in the higher year of the previous study programme and that they met obligations arising from their previous study programme should be sent to the Faculty of Sport by 17 September 2015.

The decisions concerning the transfer are made by the Study Affairs Committee that determines by way of decision which obligations are recognized and which obligations the student has to meet arising from the new study programme. Taking all this into account, the Commission also determines the year in which the student can enrol.
